

RS449

The RS449 Adapter manufactured by RCI performs the necessary adjustments between an RS449 interface and an RS232 interface to allow direct connection of both.

Model 387

The Model 387 of the RS449 connects an RS232 interface to an RS449 interface. The unit configures the RS232 as DTE (data terminal equipment) and the RS449 as DCE (data communications equipment). The Model 387 is fitted with a DB25F connector and a DB37M connector.

Model 487

The Model 487 of the RS449 connects an RS232 interface to an RS449 interface. The unit configures the RS232 as DCE (data communications equipment) and the RS449 as DTE (data terminal equipment). The Model 487 is fitted with a DB25M connector and a DB37F connector.

Specifications:

Size:	3.14"W x 3.375"D x .883"H
Weight:	.25 lb
Enclosure:	Plastic
